Big Bags

ASBESTOS BIG BAGS WITH LDPE INNER LINER

Big bags, also known as FIBCs (Flexible Intermediate Bulk Containers), are large, robust bags used for the transportation and storage of bulk materials such as sand, gravel, and chemicals. They are durable, easy to fill and empty, and can be customized to specific requirements such as weight capacity and dimensions. Big bags are versatile and commonly used across various industries including construction, agriculture, and the chemical sector.

Product information
