PIPE CLAMP

Sturdy 45 mm pipe clamp for a stable and reliable fastening of pipes and tubes in construction, installation engineering and assembly.

Looking for a reliable solution for securing pipes? This 45 mm pipe clamp is designed to fasten pipes and tubes extremely firmly. The product is widely applicable and proves its worth in a variety of sectors, including construction, installation engineering and technical assembly. Thanks to the precise diameter of 45 mm, the clamp fits seamlessly onto pipes of the same size. This ensures a stable, safe and reliable fastening of your piping system at all times.
