Elastibinder

An elastic binder for scaffolding is a flexible and durable fastening option, made of elastic material. It provides a simple and efficient way to secure materials and accessories to scaffolds, creating a safe and organized work environment. With hooks at both ends, it offers a firm grip and versatility in securing various items onto the scaffold.

Technical data

- Polyester-braided rubber Ø 5mm with a PE hook on one side and a PE point on the other
- Packed in a transparent PE bag with a neutral sticker, 4 languages and EAN code
- Outer packaging in boxes of 3-ply water-resistant cardboard
- Delivered on Euro pallets (80 × 120cm)
