Garbage bags

Debris bags made from woven polypropylene (PP) with polyethylene (PE) film offer a robust and durable solution for collecting and disposing of construction waste and debris. They are tear and leak-resistant, suitable for heavy materials. With reinforced construction and sturdy handles, they are easy to handle and ideal for various construction and demolition projects.

Product information

- PP woven bags, A1 raw material, color white, fabric weight 60g/m²
- LDPE film bags, A1 raw material, color transparent, quality 130m²μ
- Display products packed in a PE bag provided with neutral COVER label, including 4 languages and EAN-code
